

Significant Trees on Magnetic Island

Trees - particularly large old trees, contribute significantly to Magnetic Island's aesthetic qualities. Trees provide shade, hollows for native animal and a sense of place. Magnetic Island Nature Care Assoc. (MINCA) wishes to establish an online register to celebrate & ultimately help to protect trees that the community has nominated as having particular significance. You can help by nominating your favourite tree....

Location	Mud Map of tree's location
Bay	
Street	
Describe location (eg. public / private land)	

Description of tree	email or send a photo
Species (if known)	
Girth: Height (approx)	
values: (eg historical significance, birds nesting, aesthetic values etc)	
Reason/s for nominating tree as significant?	
	take wide photos

Health of the tree	
Condition:	
Has the tree been pruned or damaged by Yasi?	
Is the tree under known threat?	
	take detail photos too

Please post this form to:
PO Box 30, Magnetic Island
Queensland, 4819

or email to:
president@MINCA.org

Visit MINCA's website for
info: www.minca.org

Nominator	
Name:	Member of MINCA? Yes / No
Address:	email:
Ph:	Mob:
please email .jpg photos or post a hard copies	

Feel free to add additional sheets and info about the tree if needed
